96" EXTERNAL LONGITUDINAL SEAMER (MODEL 96E8-36)

The Model 96E8-36 External Longitudinal Seamer as described includes one copper back-up bar with back-up groove machined to customer's specifications, a water-cooled mandrel, two seam alignment gauges, a variable pressure aluminum fingers clamping system with foot controls, a safety air interlock on mandrel latch, and a machined side beam track for rack and pinion carriage travel.

Part Configuration Cylinders 8" I.D. to 36" O.D., flat sheets, and other configurations which can be

placed on the mandrel without structural interference.

back up bar. Plumbed for connection to an outside water source to enhance the heat sink

capabilities of the seamer.

Back Up Bar Copper with machined groove to support and shape weld puddle.

They are used for referencing the alignment of the back up bar, weld joint and torch travel

path.

Clamping Actuation Industrial air bladder clamping, spring return.

Clamping Pressure 0 to 200 pounds per linear inch.

Air System Requires a clean 90 psi input. Includes filter/regulator/lubricator.

Safety System Air interlock prevents clamping if the end latch is open.

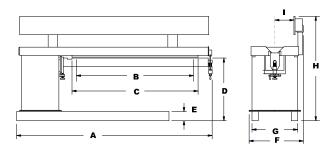

pitch and yaw adjustment along the full length of travel. A precision gear rack is mounted

on the back side of the blade for carriage travel.

Carriage See Specification/Price Page G-1 & G-2. Electrical 115 Volt, Single Phase, 60 Hz.

Controls Front and rear footswitch for finger clamping.

PRICE

Α	Overall Length	146"
В	Weld Length	96"
С	Clamping Length	102"
D	Mandrel Height	43"
Е	Base Leg Height	6"
F	Overall Width	34-7/16"
G	Base Width	28-1/4"
Н	Overall Height	71-1/2"
I	Weld Centerline	11-3/16"

PANDJIRIS, INC

5151 Northrup • St. Louis, MO 63110 • (314) 776-6893

MODEL 96E8-36 EXTERNAL SEAMER Optional Accessories

For replaceable copper tipped fingers For continuous copper strip mounted on finger clamping system For replaceable stainless steel tipped fingers

For extra copper back-up bar (plain) 8'-7" long To provide for gas back-up in copper bar For extra stainless steel back-up bar (plain) 8'-7" long To provide for gas back-up in stainless steel bar For stainless steel back-up bar in place of standard copper bar

For water cooler for mandrel cooling system For adjustable mandrel height, provides 2" of lower mandrel adjustment For extra side beam track extension (per foot) For power cable support track

For removable column elevation riser block

For powered end latch For pneumatic seam alignment gauges

WELD EQUIPMENT MOUNTING CHARGES

Pandjiris will mount and integrate welding head and control packages on the above seamer. The configuration of the mounting will typically include installation of the wire drive, torch, wire reel, flux hopper, wire drive control, and connection of all cables and hoses between the power source and wire feed control required for proper operation. Other accessories such as AVCs, slides, swivels etc. can also be mounted for an extra charge.

To Mount a Single Wire SUB-ARC package To Mount a MIG package To Mount a Cold Wire TIG package To Mount a Fusion TIG package To Mount an AVC with the above TIG packages

Mounting of one of the above weld packages requires a carriage, various slides and a 90° mounting bracket. These options can be found on Specification/Price Pages E-1, E-2, G-1, G-2.

NOTE: For customer supplied welding equipment, mounted by Pandjiris, there is a 15% handling charge based on the current list price of the equipment supplied.

Terms: Pandjiris, Inc. standard terms and conditions apply, f.o.b. Factory, St. Louis, Missouri, or designated ship point.

Delivery: Consult factory.
