SAFETY BULLETIN

Prevent Serious Injury or Death: Positioners/Head & Tailstocks/Grippers All Models

Follow General Safety Instruction

In accordance with Pandjiris continuing improvement efforts, we have updated the manuals on our positioners, head & tailstocks, and grippers:

It is imperative that end users implement appropriate maintenance, training and operating procedures. These procedures should define safe practices for each workpiece and application, to include procedures for transporting, handling and loading each workpiece and if applicable, for moving or re-orienting Pandjiris' equipment as well as for extended down-time, cooling, or "parking" conditions.

All Individuals in contact with any positioner, head & tailstock, and/or gripper application should read and understand the instruction manual.

See links to current updated standard equipment manuals here:

- Positioners: https://pandjiris.com/pos_060220/
- Head & Tailstocks: https://pandjiris.com/hts_060220/
- Grippers: https://pandjiris.com/gr_060220/
